A/ Changes the title to:

-- **METHOD FOR MAKING MEMORY CELL WITHOUT HALO IMPLANT**—

B/ puts a legend under fig 1 to mark it as **"PRIOR ART"**.

The legend is. necessary in order to clarify what applicant 's invention is (see MPEP paragraph 608.02).

Reason for allowance

2. Claims 10-15 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed **METHOD FOR MAKING MEMORY CELL WITHOUT HALO IMPLANT** having the limitations:

-- " the memory cell comprising a body region doped with charge carriers of a first type, a source region disposed in the body region and doped with charge carriers of a second type, and a drain region disposed in the body region and doped with charge carriers of the second type, wherein the body region, the source region, and the drain region are oriented in a first direction, wherein the body region and the source region form a first junction, wherein the body region and the drain region form a second junction, and wherein a conductivity of the first junction from the body region to the source region in a case that the first junction is unbiased is substantially less than a conductivity of the second junction from the body region to the drain region in a case that the second junction is unbiased; fabricating a transistor of the device, the transistor oriented in a second direction, wherein the second direction is not parallel to the first direction; and fabricating a halo implant within the transistor, wherein a halo implant is not fabricated in the memory cell. "--

and all other limitations as recited in claim 10.
